Dr. Terry Giangreco, a native Rochesterian, graduated from Rutgers University with an Art Degree and went on to Dental School at SUNY Buffalo. He then completed a Masters in Orthodontics at Northwestern University. In 1995, Dr. Giangreco joined Dr. Ronald Cortese in private practice. Five years later, he established his current practice, Get-It-Straight Orthodontics. He was a member of the Craniofacial Team at the University of Rochester for over 10 years where he found a passion for treating children with special needs.

Dr. Giangreco is a frequent lecturer, sharing his orthodontic expertise with area dental societies and study clubs on subjects including the advantages of 3-D Diagnostic Imaging, Airways in Dentistry, the Damon System and Invisalign. He has been published in numerous dental journals.

Dr. Giangreco is an instructor for Ormco Corporation, a leader in the development of innovative orthodontic products, training fellow orthodontists on the Damon System which is the leading system of passive self-ligation braces.

Dr. Giangreco lives in Webster with his wife, Tricia, and their two sons, Vincenzo and Domenic.

Monroe County Dental Society is a component of 7th District; recognized as a CERP provider through NYSDA.

- Continuing Education (CE) credits are awarded for all lectures that meet the NYSED requirements.
- One hour of credit is awarded for each 50 minutes of presentation attended.
- CE forms for NYS Continuing Education requirements will be given to each attendee when checking in at registration.
- To verify attendance, a four-digit code, read at the end of each seminar, must be marked on the CE form.
- After completing the form, please bring the white copy to the registration table before leaving.
- The yellow copy is for your own records. It is recommended that you retain copies of all your CE forms in case of audit.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/goto/cerp.

SESSION DESCRIPTION:
Airway evaluation and treatment is a hot topic in dentistry. Dental devices have become Mainstream for the treatment of mild to moderate Obstructive Sleep Apnea (OSA). In the more recent years, we have found that dental devices to temporarily advance the mandible are just scratching the surface of therapy of the airway-compromised patient. The use of Cone Beam Computed Tomography (CBCT) to evaluate airway obstructions is an objective indicator to the level of potential sleep apnea. CBCT diagnostics can also guide clinicians to proper treatment of a compromised airway. A non-obstructed airway with nasal breathing is critical for proper physiological sleep and affects both children and adults. Poor physiological sleep in both age groups have very different consequences to their long-term health, including Temporomandibular Disorders (TMD), dental crowding, bruxism/clenching, enamel wear/erosion, bone loss, gingival recession, craniofacial distortions, ADHD (Attention Deficit Hyperactivity Disorder), cardiovascular disease, diabetes, GERD (Gastroesophageal Reflux Disease) and many other medical sequelae.

LEARNING OBJECTIVES:
At conclusion, participants should be able to:
1. Understand the concept of Upper Airway Resistance Syndrome (UARS) versus Obstructive Sleep Apnea (OSA)
2. Assess patients for relevant Airway-related Signs and Symptoms
3. Assess a variety of objective CBCT measurements and interpret the findings
4. More predictably treat patients with Temporomandibular Disorders (TMD), severe wear, erosion and recession
5. Collaborate with other dental and medical professionals in a very meaningful capacity for the patient’s well-being
6. Provide a foundation from which to further our education toward more specialized airway-focused dentistry

ADA CEREP® Continuing Education Recognition Program
THE NEW YORK STATE DENTAL FOUNDATION is an ADA C.E.R.P. Recognized Provider
Name: (please print) Attach a list of additional attendees if necessary.
