

AAP Classification of Periodontal and Peri-Implant Diseases - Aligning the Dental Hygiene Diagnosis

Course Description

The updated AAP classification system created in 2017 represents a multi-dimensional staging and grading framework for periodontitis and implant disease status. This course will examine the concepts of staging and grading to classify each patient by complexity of case management, likelihood of less predictable response to therapy, and potential for periodontitis development. A hallmark feature of the updated system brings opportunities for more case specific patient care.

Executing appropriate and necessary periodontal therapies will be discussed. The need for calibration and clinician alignment with the new classification system as well as treatment decisions will be discussed along with narrative examples for documentation recommendations.

Learning Objectives

- Examine the historical timeline and evolution of the AAP Classification System.
- Discuss the new staging/grading system for periodontal disease and how it will benefit patient care and management.
- Create treatment modalities that are evidence-based protocols for specific types of periodontal diseases according to the new classification system.
- Identify patients who may benefit from adjunctive strategies of disease management and overall health surveillance based on the updated classifications.

Featured Speaker

Marianne Dryer is one of dental industry's most outspoken educators on subjects of periodontal instrumentation and a champion of early and advanced introduction to ultrasonic instrumentation into dental hygiene curricula. Her dynamic presentations, articulate academic instruction, and insightful curriculum development consultation are founded on more than 30 years of oral health experience. As such, Marianne is sought after nationally and internationally for her presentations on ultrasonic technique, risk assessment, infection prevention and radiology technique. Marianne has held faculty positions at dental hygiene programs in Texas and Massachusetts and is currently the Program Director at Cape Cod Community College in Massachusetts.

Speaker Disclosure: Speaker is being compensated by Dentsply Sirona for this event, but does not have monetary or other interest(s) with Dentsply Sirona or any other company whose products are discussed or presented in this presentation.

We encourage doctors and their hygienists to come together!

Program Details

Date & Time

Date: May 2nd, 2024
Time: 6:00 PM - 8:00 PM

Location

Corning Country Club
2501 Country Club Drive,
Corning, NY 14830

Tuition & CE Credits

The cost of attendance is \$45 per attendee, which includes dinner, door prizes, and 1 CE credit hour. Payment can be made by cash or check at the door. Please make checks payable to the Steuben County Dental Society.

Registration & Contact
